Reached Denver at 2.30 P.M. and visited Colorado Museum of Natural History where I had expected to meet J. D. Figgins, but learned that he was out of town for the afternoon on an egg hunting trip. Saw A. M. Barby and had a good visit with him and looked over his work and the Museum. Some of the mounted groups are good, and I was especially attracted by the backgrounds painted by Figgins.
Left Denver 6 P.M.

Off from cabin in Indian Hollow near Big Saddle at 10 A.M., camped about 2 miles north of Jump Up. R.S. about 4:30 P.M.

Rode until about 1 P.M. through yellow pine timber, then turned north and entering juniper-jumper belt descended mainly along draws to camp. Day bright and warm - snow melting fast but remaining in patches under trees and on north slopes in juniper belt. Camp made on ridge among junipers - snow melted for camp use.

Deer. Several bunches of 8 or 10 seen near Jump Up, and a number of freshly shed horns noted.

Mar. 25 - Jung up to Ryan - 18 miles. Off at 8:20 A.M. - Reached Ryan 1 P.M. Aphelocoma - no papers
 Made trap on foot in afternoon from Ryan down the canyon about three miles and then back over mesa to the south. The mesa is overgrown with brush and three bunches of deer - 24 in all were seen and appeared to be quite tame. Locke found few signs of deer & in this same section 3 years ago and along with Swapp's statements that deer are more plentiful near Ryan this year indicates a possible extension of winter range.

Mar. 30. Camp south of Kane to Saddle Mt. at alton.

Made a long ride today, about 40 miles across south canyon and Saddle canyon to Saddle Mt. and on to the rim of the Grand canyon at the lower end of Marble canyon. At this point splendid views are afforded of the Huerfano Basin and of the Colorado River—above the mouth of the Little Colorado. The break in the opposite wall marking the mouth of the Little Colorado could be plainly seen.

 track was seen by Dunham
 near Saddle Canyon, but
 too late in the evening to
 follow. Dunham estimates
 that there are not over
 a dozen lions at present
 in the entire Karabak area.
~~He says. His observations~~ His
 observations of breeding habits
 indicate that 2 is
 the usual number, but
 there may be 3 or 4 and

Mar. 31 - Camp south of Leame to Loxcomb country & return.

~~The~~ Most of day spent on a lion hunt, which ended successfully.

Mt. Zion. Tracks found near 3rd Loxcomb had been lightly raised upon and were apparently about one and a half or two days old, but dogs by considerable work were able to follow them.

Apr. 2, leave to
Two Mile Spring - 20
miles.

A light snow last
night, that melted in
an hour or two this
morning.

Two mile spring is located
at base of Vermillion bluffs
where there are quite low.

Apr. 3 - Two Mile Spg.
to ranch on Johnson Wash.

Deer, Locke & I rode across the
northern end of the Kribak Plateau
today from a point a few miles
north of 2 mi. Spg. But saw
only a few signs of deer,
although there is some suitable
browse.

Vaughan's got 3 birds in
Jain. of this year.
